**THE CONVENIENT CALCINATOR**—“If it burns, the Calcinator will dispose of it.” Ray Krause (left) and F. G. Murphy set about to prove that statement as they drop a length of old hemp into the newest-type garbage and trash disposal. Krause is Southern California distributor of the refuse disposal device. Murphy is Calcinator sales manager for Liberty Home Economy Co., exclusive South Bay distributor of the unit.

## Liberty Appoints Murphy Calcinator Sales Manager

Liberty Home Economy Company, 1623 Cravens Ave., this week announced the appointment of F. G. Murphy as sales manager of the Calcinator division of the local firm. Murphy, who has been in the home improvement field for five years, has for the past three years specialized in the field of garbage and trash disposals in private homes.

Specializing in his position with Liberty, Murphy will concentrate on the latest thing in garbage and burning trash incinerators, the Calcinator.

This automatic disposal unit effectively destroys all food matter and other materials, except metal and glass, by the process of first dehydrating, then burning them completely.

The heart of this new, modern home convenience is a tiny gas flame. Currents of air heated by the flame draw all moisture from waste and garbage. The refuse then burns completely.

**Trips Out**  
 “Trips to the garbage can and to the back yard incinerator are old fashioned now,” Murphy said. “With Calcinator, you simply drop the paper wrapped food scraps and almost anything else that is waste matter into the gleaming, white Calcinator, and let it go to work.”

The calcinator is already being used widely in hospitals and restaurants because of its economy of operation, complete efficiency, and absolute safety, he added.

**Low Cost**  
 The cabinet of the unit is of easy-to-clean white enamel. Accurately set at the time of installation, the gas burner, which costs only 30 cents per month to operate, requires no further adjustment. It is fully protected against ashes and refuse by an acid-resistant stainless steel shield.

The Calcinator may be installed in kitchen, utility room, basement, or beside the home heating unit. Its compact cabinet is about the same height and depth as the average kitchen range.

Murphy added that there is a good opportunity for any local person who wishes to sell the new Calcinator in this area. He may be contacted at the store.

## Mindszenty Trial Dramatized on Radio Sunday

In an unprecedented radio broadcast, the U. S. Steel Hour will present “Trial By Forgery,” the shocking documentary of the Cardinal Mindszenty courtroom case, Sunday evening, January 18, via coast-to-coast stations of the NBC network at 5:30 p.m. (PST). With two of Hollywood’s finest performers — Anne Baxter and Joseph Cotten — in the leading roles, “Theatre Guild On The Air” will dramatize the eye-witness account of Hanna and Laszlo Sulner, Hungary’s foremost handwriting experts. The drama exposes the terror forced upon the Sulners to forge the Cardinal’s handwriting in order to substantiate his drugged testimony. Actual records of these documents were smuggled from behind the Iron Curtain by the Sulners, who finally escaped to tell the free world of the Communist “Trial By Forgery.”

## Boys' Casaba League Has First Games

In the first boy's basketball league contest played last Saturday the Wildcats ran wild to defeat the Greens by a 71-31 score. In the second game the Walteria Bruins lost to the Panthers on a forfeit. The third game saw the Lions defeated by Nativity, 24-22.

Four contests are scheduled for next Saturday in the girl's gym at the high school. Beginning at 10 a.m., the Bruins will take on the Lions. At 11 a.m., The Greens and the Cubs will tangle. After lunch, the Panthers will clash with the Wildcats, and following that Nativity and the Streaks take over the floor.

The games are under the direction of Coach Don Porter of Torrance High School and Elmer Red Moon, City Athletic Director.

## Keystone Area Annexation to L. A. Sought

Residents of the Lomita Square district of South Keystone may have an opportunity to decide whether they wish to become part of the city of Los Angeles in the regular municipal election on April 7.

Los Angeles City Councilman John S. Gibson said that it is possible that the annexation election might be staged at the same time if proceedings move quickly enough.

Petitions to annex are being circulated in that area now, following approval granted two weeks ago by the Los Angeles City Council, it was reported. The petitions for an annexation

## Guest Speaker At Demo Meet

Mrs. Elizabeth Snyder, vice chairman of the State Democratic Committee, will be guest speaker at Sunday's meeting of Torrance Democrats Inc.

The meeting is slated for this Sunday at the Hollywood Riviera Beach Club, 201 Paseo de la Playa. It will begin at 2 p.m., according to Mrs. Irene Fraser, secretary of the club.

election must bear at least 25 per cent of the area's registered voters, according to Gibson.
